

COMMERCIAL HALOGEN HEATER

Description:

Unlike ordinary heating systems, the Commercial Halogen Heater produces instantaneous heat. The Commercial Halogen Heater offers instant heat, which is radiant and warms people and or objects, not the air. This makes the Commercial Halogen Heater both efficient and economical. With all the benefits of the industrial Halogen Heater, the Commercial Halogen Heater can be used outdoors safely for heating purposes, due to its IP55 rating.

Features:

- ⊕ Portable instant heat
- ⊕ Heat is radiant and warms people or objects, not air
- ⊕ Efficient and economical Easy to install
- ⊕ Safe to use for outdoor use
