

NF - INDUSTRIAL FANS

Description:

The NF Industrial Fan range is excellent for circulating air in a wide variety of applications such as offices, lunchrooms, cafeterias, warehouses, factories, etc. These fans come with a 3 speed motor and adjustable oscillation (Pedestal and Wall fan only). The fan's design and construction ensures that the fan circulates air both quietly and efficiently. Fans are energy efficient and are the most environmentally friendly way to increase air circulation and cool workers.
