

GAS TUBE RADIANT HEATER

Description:

The low maintenance Gas Tube Radiant Heater is quiet and clean, making it excellent for outdoor alfresco areas or high roof factory work spaces. The radiant heat from the Gas Tube Radiant Heater warms people, the floor and machinery, not empty space! The Gas Tube Radiant heater comes in either straight or U-tube. Straight tube suits long narrow areas, U-tube suits shorter, wider areas.

Features:

- ⊕ Easy to install
- ⊕ Low maintenance
- ⊕ Quiet and clean
- ⊕ Automatic safeguard system
- ⊕ Requires gas filter to install
- ⊕ Flue kit may be required in some states
- please check with your local authority.
