

INDUSTRIAL FAN HEATER

Description:

The Industrial Fan Heaters are designed for heating or drying purposes in a well insulated, draught free environment. They emit a gentle airflow of warm air. Multiple heat settings are available and the Industrial Fan Heater can even be used as a fan on those hot days where only air circulation is required. Available in single phase 240v or 3 phase 415v models.

Features:

- ⊕ Multiple heat/ fan settings
- ⊕ Overheat protection
- ⊕ Single phase 240v or 3 phase 415v
- ⊕ Can be used as fan only

Specifications:

Model #	Heat Settings	Fan Speed	Output	Voltage	Plug
IFH-2	2 Settings	1	2kW	240v	10amp
IFH-3	2 Settings	1	3kW	240v	15amp
IFH-5	2 Settings	2	5kW	415v	4pin 10amp
IFH-9	2 Settings	2	9kW	415v	4pin 20amp
IFH-15	3 Settings	2	15kW	415v	4pin 32amp

NOTE: 15 amp plug requires a 15 amp power outlet
