TECHNICAL DATA SHEET

SPECIFICATION	
Model No	IGH2-20
Heating Output	20kW 68,240 BTU
Air Flow (L/s)	139
Gas Type	ULPG
Power Consumption	200W
Voltage	220~240V / 50Hz
Current (A)	0.80
Plug Connection	3 pin 10amp
Regulator Pressure Output	61KPA
Fuel Consumption (KG/hr)	1.42
Heating Area (m2)	up to 200
Minimum Gas Cylinder Size (kg)	15
Minimum Volume of Room	360m ³
Weight	8.1/9kg
Dimensions (mm)	(W)x(D)x(H)
Packaging (mm)	(W)590x(D)345x(H)370

Minimum clearance from combustible materials:

Sides 0.6m

Top 1.8m

Front 2.4m

FOR INDUSTRIAL USE ONLY. MUST BE USED IN WELL VENTILATED AREAS
