

TANSUN SORRENTO ELECTRIC RADIANT HEATERS

Discover the Sorrento Collection of low glare, high powered heaters that can enhance any outdoor or indoor environment. Ideally used in larger regions where more heat is required. Expertly crafted in the UK, the durable Tansun Sorrento infrared heater line includes a body made of lightweight aluminium extrusion. Due to its exceptional construction, simple installation, and unmatched aesthetics, the Sorrento is one of the most widely used infrared heaters. It is fixed on an adjustable frame, allowing the heat to be directed precisely where it is needed, and its elegant, lightweight design makes it effective while remaining unobtrusive.

For restaurants, bars, and other businesses wishing to make the most of their outside spaces all year long, the Sorrento is the perfect heating solution as it is robust in all weather conditions.

Available in the following sizes;

Single 2kW - The Sorrento Single heater is available in 2kW power output, and the modular design allows different sizes to be combined together to create a bespoke heating system suited for your patio.

Double 4kW - The Sorrento Double heater is available in 4kW power output and offers twice the heating power compared to the Single model.

Triple 6kW - The largest quartz infrared heater in the Tansun Sorrento lineup. This heater has a maximum output power of 6 kW and offers three times the power of the single version. It has an impressive heat coverage, making it ideal for heating large spaces.
