

**NEW PRODUCT**

# Easy Dose Mini Cartridges

## Water Treatment

The Easy-Dose Mini cartridge is designed for evaporative coolers for effective control of algae, bacteria, fungi and legionella. The Easy Dose Mini cartridge has been tailored for use in evaporative coolers with its size and dosing rates specifically suited for small water volumes up to 300 litres.

When the cartridges are 90% spent, they float to the surface indicating the system needs further treatment.

Suitable for use in:

- PAC500 Poratable NewTech Cooler
- PACISD Industrial Directional NewTech Cooler
- PACIMD Industrial Multi Directional NewTech Cooler
- IMF650 Misting Fan 650mm
- MMF500 Misting Fan 500mm
- MMF650 Misting Fan 650mm

### Specifications:

<b>Model No</b>	<b>Description</b>	<b>Size</b>
SP-EDCM	Easy Dose Cartridge	Mini
